

**North Cleveland Baptist Church**  
**Application for SMART Membership**

SMART (*Small Maintenance and Repair Team*) is an arm of ministry for North Cleveland Baptist Church members. The purpose of SMART is respond to physical ministry needs within the church that can be done by one or two people in a short time. Emphasis will be on meeting the needs of widows, elderly, and the homebound, particularly those with limited incomes.

Practical ministry needs include: carpentry, painting, plumbing, yard work, and electrical repair. Yard work will not be on a continual maintenance basis, but for jobs that can be handled on a short term basis. Work must meet a practical need of members that cannot be accomplished by the member themselves. Remodeling for esthetic purposes is not considered a valid need.

We need volunteers with skills to meet needs of our members that cannot accomplish everyday tasks themselves. You will not be asked to do a job by yourself if you need help or do not have the skills needed. In such cases, you will be paired with another team member with complementary skills needed for the work. Team members are not expected to pay for materials. This is the responsibility of the member making the request, or possibly provided by the Missions Committee for special situations. Team members are not expected to tackle difficult tasks best handled by professionals, such as work on high roofs. Large jobs such as handicap ramps will continue to be handled by the Baptist Men's Group with a larger team.

All church members can be part of SMART. You do not have to be a deacon, a man, or any particular age. You just have to be willing to help other members in need. Often, just the blessing of the opportunities for fellowship while helping others is great for both the member in need and the person helping.

Please provide the following information about yourself:

Name: \_\_\_\_\_ Address \_\_\_\_\_  
\_\_\_\_\_

Phone Numbers: Home \_\_\_\_\_ Cell \_\_\_\_\_

Email if available: \_\_\_\_\_

Please check below the type of work that you can accomplish as part of this program. You do not have to have expert handyman skills to handle many of the tasks expected to be requested. For example, the request may be as simple as changing a light bulb that a member cannot safely reach or trimming an overgrown shrub. (over)
